Welcome.

This document will let you create modifications to Pixel Zone.
ATTENTION!!! YOU MUST HAVE AN ACCOUNT ON THE PROJECT WEBSITE
(www.karoltomaszewskimu.wixsite.com/mastergames /) !!!

!!! DO NOT WRINKLE WITH THE NEWSLETTER !!!

1. Choose the version you want to create the modification. Either a new project or a modification of the source code of the game (look at it at www.github.com/MasterPolska123/)

2. You must download Godot Engine - with its help you will create and test fashion (www.godotengine.org)

3. Load the game code and start creating the mod. Remember that the scene modified GUI.tscn (from which the player begins his adventure with modification) must be in 'res: //' and be called 'mod.tscn' (in total 'res: //mod.tscn').

4. Send the completed modification in the mail to "karoltomaszewskimusic@gmail.com" so that we can evaluate it and allow it or prevent it from being downloaded. You must write in the email what your username is on the project website.

5. Evaluation criteria:

   5a. Elements forbidden in modifications:
  • All content intended for adults
  • Blood
  • Violence
   5b. Elements allowed in modifications:
  • Everything that was NOT mentioned in point 5a.
